

## **Problem Solving Seminar 2**

MA 495-00, Fall 2001

We meet Fridays 4:20pm-5:20pm in Seminar Room (458 CH)

**Instructor:** Dr. Alexander Blokh

**General Foreword:** The main topic goal of Problem Solving Seminar 1 will be working on solving interesting and often tough but elementary in terms of machinery problems. A lot of sources will be used, mainly collections of problems from various students' competition. A few high school students are also attending the meetings of the seminar.

**Texts:** For the most part we will use class notes or copies of selected pages of some books.
