

## **Problem Solving Seminar 2**

MA 496-00, Fall 2001

We meet Mondays 1:25pm-2:15pm in Seminar Room (458 CH)

**Instructor:** Dr. Alexander Blokh

**General Foreword:** The main topic goal of Problem Solving Seminar 2 will be working on solving interesting and often tough problems on the undergraduate level. One of the main sources of problems is Mathematics Magazine, but other sources will be used as well. Participating in the Seminar will prepare students for participating in students' competitions such as Putnam Competition.

**Texts:** For the most part we will use class notes or copies of selected pages of some books.
