

**Department of Mathematics, UAB  
University of Alabama at Birmingham  
March 15 - March 17, University Hall**

## **Billiards and other dynamical systems**

**Dedicated to the memory of Kolya Chernov**

**This workshop aims at providing a framework for researchers of billiards and related dynamical systems. Workshop participants will have an opportunity for fruitful discussions leading to the advancement of the field that was the center of Kolya's scientific interest.**

**Main Speaker (series of three lectures):**

**Professor Hongkun Zhang, University of Massachusetts**

**Invited Speakers: Alexander Blumenthal, Federico Bonetto (GA Tech), Mark Demers (Fairfield University), Alexander Grigo (University of Oklahoma), Renato Feres (Washington University at St Louis), Nandor Simanyi (UAB), Yaofeng Su (GA Tech)**

**All interested students and faculty are cordially invited to join the audience.**

**This workshop series is made possible by the generous support of the Michael Brin Endowed Fund for lectureship in memory of Nikolai Chernov.**
