Assignment #4

Section 11.4. Problems 4, 12, 20, 26, 28*, 36 (ignore the computer programming part).

Section 11.5. Problems 4, 8, 16, 26, 30, 38*, 40*.

The starred problems are for extra credit. Each problem is graded on the base of “4 points max”. Some (easier) problems may not be graded.

The average in the first midterm test is 77 points out of 100. The test problems, with answers, are posted on my web page (see the syllabus for the link).
