Dynamical Systems
MA 760-1C, Spring 2005

Class meets (days? times?) in Seminar Room (458 CH)

Instructor: Dr. Nikolai Chernov
Office: 492 A Campbell Hall, ph. 934-2154 or 934-8613
E-mail: chernov@math.uab.edu

Class notes are available from the instructor's web page in PDF format:

$$http://www.math.uab.edu/chernov/teaching/teach.html$$

Homework: There are exercises in the classnotes, which you need to do as homework. Ideally, you need to do (or at least, figure out how to do) all the exercises. Write up your solutions and submit them whenever possible. Overall, you need to submit about 80% of the exercises for full credit.

Presentations: Periodically, students will present some projects (usually, proofs of major theorems) in class. Every student will need to present 2-3 projects during the semester.
