Quiz 6

Question 1

A Markov chain has transition matrix

$$P = \begin{bmatrix} 0 & 1 & 0 \\ 1/2 & 1/4 & 1/4 \\ 1/4 & 1/2 & 1/4 \end{bmatrix}$$

Use one step analysis to find the mean time m_{10} for going from state 1 to state 0. Using this, find the value of m_{00} , the mean return from state 0 to state 0.

Question 2

Suppose X_n is a branching process with offspring distribution ξ which has a Geometric(c) distribution $p_k = ck(1-c), 0 < c < 1$. If $X_0 = 1$, what is the probability that the branching process goes extinct by time 2? In other words what is $P(X_2 = 0)$?
